

LEAD SAFE CHILD CARE RENTAL PROPERTY OWNER CONSENT FORM

If you are receiving this document, it is because your tenant is applying for the Lead Safe Child Care Program. The [Lead Safe Child Care Program](#) is recruiting 30 child care providers operating out of facilities built before 1978 to assess their properties for lead hazards and remediate them via renovation, repair, and painting (RRP) projects using funds from the Lead Safe Cleveland Coalition (see section below). To participate, child care providers must complete a program application and provide the required documentation. If the child care provider is leasing the space, their landlord must complete this consent form and provide the following additional documentation:

- Last year's tax return
- Proof of payment of property taxes or proof of property tax payment plan
- Photo identification

If you are interested and willing to participate, please email Michele King at Starting Point Staff (Michele.King@Starting-Point.org) to arrange for the submission of this signed consent form and associated documentation. By completing this document, you consent to your tenant participating in this program.

Assessment and Remediation Process

Once the application is approved, Starting Point Staff will contact you and your tenant to arrange for a trained and program-certified inspector to visit your property. The inspector will check what lead services are needed to make your property, your tenants, and the children in their care safe from lead. This inspection might take a few hours, and the inspector will need to access the attic, operation spaces, living spaces, and basement.

It is important to know that if the inspection finds any unsafe conditions (e.g., leaking roof, structural damage or issues, infestations, hoarding), the lead work cannot happen until those issues are fixed.

After the inspection, the inspector will explain what work is needed, fill out paperwork, and Starting Point will contact the contractor who will perform the work. The contractor and/or Starting Point Staff will then contact you to schedule the job. When the work is finished, an inspector will return to ensure everything was done right and perform a final check. Once everything is completed satisfactorily, it is the responsibility of the property owner of a residential property to get their Lead Certificate from the City of Cleveland.
